

**FOUR YEAR UNDERGRADUATE (FYUG) PROGRAMME  
UNDER NEW EDUCATION POLICY, 2020**

**DEPARTMENT OF EDUCATION**

**Date of Approval by AC: 30<sup>th</sup> May and 21<sup>st</sup> June 2024**

## Preface

Education is the cornerstone of personal and societal growth, fostering the development of critical thinking, emotional intelligence, and social responsibility. The course structure detailed in this syllabus has been meticulously crafted to provide a comprehensive and multi-faceted education to students embarking on their academic journey. Each course has been carefully selected and sequenced to build on the knowledge and skills acquired in previous semesters, ensuring a coherent and progressive learning experience. Students will develop a robust understanding of educational and psychological principles, practical skills for personal and professional growth, and the ability to apply these concepts in real-world settings.

The curriculum employs a mix of lectures, seminars, group work, and practical sessions to cater to diverse learning styles and ensure an engaging educational experience. Assessment methods include exams, projects, presentations, and participation, with clear evaluation criteria to measure students' performance and progress effectively. Students will have access to essential textbooks, readings, online materials, and other necessary resources to support their learning. Academic advising, tutoring services, and office hours are available to provide additional support and guidance throughout the course.

Students are expected to actively participate, attend classes regularly, and engage in all course activities. Instructors/Faculty Members/Members will facilitate learning, provide feedback, and support students' academic growth. The curriculum includes opportunities for internships, fieldwork, community service, and research projects, allowing students to gain practical experience and apply their knowledge in real-world contexts. Hands-on learning through internships, apprenticeships, and community engagement ensures that students are well-prepared for professional challenges and equipped to make meaningful contributions to society.

The curriculum fosters holistic development by integrating emotional intelligence, critical thinking, and social responsibility. This comprehensive approach will prepare students to become proficient educators, researchers, and leaders. Upon completing 120 credits with a minimum GPA of 5.0, students earn a Bachelor's Degree in Single Major. This program ensures graduates possess the knowledge, skills, and practical experience necessary for success in the educational sector and beyond.

## Programme Outcomes (POs)

After completing the programme in Education, Students will be acquainted with the following tenets of Education.

1. **Foundational Knowledge Mastery:** Equip students with a robust understanding of foundational educational theories, psychological principles, and historical perspectives on education, ensuring they can critically analyze and apply this knowledge to contemporary educational challenges.
2. **Applied Educational Theories:** Train students to effectively apply advanced educational theories and psychological insights in real-world teaching scenarios, thereby enhancing instructional strategies and improving student learning outcomes across diverse educational environments.
3. **Curriculum Development:** Prepare students to design and implement innovative and effective curricula that incorporate sustainable practices and inclusive education

strategies, meeting the needs of all learners and promoting environmental and social responsibility.

4. **Technology Integration:** Enable students to proficiently utilize educational technology and employ innovative teaching techniques that foster student engagement, facilitate differentiated instruction, and improve overall learning experiences.
5. **Research Competence:** Develop students' abilities to conduct rigorous educational research, equipping them to contribute valuable insights to the academic community, inform evidence-based practices, and address complex educational challenges through data-driven solutions.
6. **Leadership and Management:** Cultivate strong management and leadership skills in students, preparing them to lead educational institutions effectively, create supportive and growth-oriented environments, and drive continuous improvement for educators and students alike.

### Course Structure of the Syllabus

| Course Code             | Course Title  | Total Credit Hours |           |       | Total Contact Hours |
|-------------------------|---|--------------------|-----------|-------|---------------------|
|                         |   | Theory             | Practical | Total |                     |
| <b>SEMESTER I</b>       |   |                    |           |       |                     |
| <b>EDN : 100</b>        | Introduction to Education (Major)   | 4                  | -         | 4     | 60                  |
| <b>EDN: 100</b>         | Introduction to Education (Minor)   | 4                  | -         | 4     | 60                  |
| <b>MDC: 117</b>         | Introduction to Psychology  | 3                  | -         | 3     | 45                  |
| <b>AEC: 120.....129</b> | Any of the available course as notified by the University from time to time | 3                  | -         | 3     | 45                  |
| <b>SEC :131</b>         | Motivation  |                    |           | 3     | 45-90               |
| <b>VAC : 140....149</b> | Environmental Science   | 3                  | -         | 3     | 45                  |
|                         |   |                    |           | 20    |                     |
| <b>SEMESTER II</b>      |   |                    |           |       |                     |
| <b>EDN : 150</b>        | Foundation to Education (Major)   | 4                  | -         | 4     | 60                  |
| <b>EDN : 150</b>        | Foundation to Education (Minor)   | 4                  | -         | 4     | 60                  |
| <b>MDC: 165</b>         | Introduction to Educational Psychology                                      | 3                  | -         | 3     | 45                  |
| <b>AEC : 170...179</b>  | Any of the available course as notified by the University from time to time | 3                  | -         | 3     | 45                  |
| <b>SEC: 182</b>         | Any of the available course as notified by the University from time to time |                    |           | 3     | 45-90               |
| <b>VAC: 190.....199</b> | Any of the available course as notified by the University from time to time | 3                  | -         | 3     | 45                  |
|                         |   |                    |           | 20    |                     |
| <b>SEMESTER III</b>     |   |                    |           |       |                     |
| <b>EDN: 200</b>         | Development of Education in India-I(Pre-Independence Period) (Major)        | 4                  | -         | 4     | 60                  |

| <b>EDN: 352</b>        | Teaching-Learning Process (Major)   | 4 | - | 4         | 60  |
| <b>EDN: 353</b>        | Great Educators: Thoughts and Practices (Major)   | 4 | - | 4         | 60  |
| <b>VTC: 360....369</b> | Any of the available course as notified by the University from time to time                   | 1 | 3 | 4         | 105 |
|                        |   |   |   | <b>20</b> |     |

**Note:**

1. For a 100 marks paper (4 credits), 25 marks will be assigned for Internal and 75 marks for end semester examination.
2. For a 75 marks paper (3 credits), 19 marks will be assigned for Internal and 56 marks for the end semester examination.
3. For a 50 marks paper (2 credits), 12.5 marks will be assigned for Internal and 37.5 Marks for the end semester examination

**Course Code** : EDN 200  
**Course Title** : Development of Education in India I  
**Total Contact Hours** : 60  
**Total Credit** : 4  
**Total Marks** : 100

**Course Objectives (COs)** The course objectives are to enable students to:

1. analyse the development of education in India from ancient times to the British rule
2. compare and contrast educational practices and philosophies across different historical periods in India
3. evaluate the impact of ancient and British educational policies on contemporary Indian education
4. describe key concepts and significant events in the history of Indian education before Independence
5. assess the influence of historical educational developments on current educational systems and practices in India

**Learning Outcomes (LOs)** At the end of the course, students will be able to:

1. recognise the evolution of the ancient education system in India
2. describe the progress of medieval education system in India
3. identify the system of education in the colonial period
4. interpret the system of education under the colonial period

#### **Unit I. Education in Ancient India (1500 BC – 600 BC)**

- Vedic Education: Salient features, Aims, System of Education- Gurukuls
- Vedic Education: Curriculum, and Role of teachers, Merits and Demerits
- Buddhist Education: Salient features, Aims, System of education, educational organisations-monasteries
- Buddhist Education: Curriculum, and Role of teachers; Merits and Demerits

#### **Unit II: Education in Medieval India (8<sup>th</sup> Century AD)**

- Islamic Education: Salient features, Aims, System of Education
- Islamic Education: Curriculum, and Role of teachers; Merits and Demerits
- Educational organizations in Medieval India: Pathshalas, Vidyapeeths
- Educational organizations in Medieval India: Maktabs and Madrasas

### **Unit III. Education under the British RuleI (1600 AD – 1900)**

- Charter Act of 1813
- Macaulay's Minute (1835)
- Wood's Despatch (1854)
- Hunter's Commission (1882)

### **Unit IV. Education under the British RuleII (1800-1947)**

- Indian University Commission (1902)and Act (1904)
- Sadler's Commission (1917)
- Hartog Committee Report (1929)
- Sargent Report (1944)

### **Sessional Work**

- Internal Test/Assignment/Seminar - 25 marks

### **Activity(Any one)**

1. Prepare an assignment on Brahmanic education.
2. Compare any two system of education and bring out their implications.
3. Present the relevance of any two system of education to the modern system of education.
4. Trace the history of education in India under the British rule.

**Course Code** : EDN 250

**Course Title** : Philosophical Foundations of Education

**Total Contact Hours** : 60

**Total Credits** : 4

**Total Marks** :100

**Course Objectives (COs)** The course objectives are to enable students to:

1. describe the philosophical foundations of education
2. analyse the educational philosophies of key Indian and Western thinkers
3. compare and contrast different theories of knowledge.
4. evaluate the influence of various philosophical theories on contemporary educational practices.

**Learning Outcomes (LOs)** At the end of the course the students will be able to:

1. recognise the concept of philosophy and its branches
2. explain the different schools of western thought and their educational implications
3. infer the importance of the Indian schools of thought and their influence in education
4. illustrate the concept and theories of knowledge

#### **UNIT I: Philosophy and Education**

- Concept, Scope and functions of Philosophy
- Concept, Scope and functions of Educational Philosophy,
- Relationship between Education and Philosophy
- Aims of Education in relation to philosophy of Life

#### **UNIT II: Western Schools of Philosophy and their Educational Implications**

- Idealism
- Realism
- Naturalism
- Pragmatism

#### **UNIT III: Indian Schools of Philosophy and their Educational Implications**

- Samkhya
- Vedanta
- Buddhism
- Jainism

#### **UNIT IV: Knowledge and its Theories**

- Meaning and nature of knowledge

- Sources of Knowledge
- Types of knowledge
- Theories of Knowledge

### **Sessional work**

- Internal Test and Assignment

25 Marks

### **Activity**

Choose any one of the following

1. A Write up on the Khasi philosophy
2. Seminar: “Values embedded in the philosophy of Indian Thinkers”
3. Project work: Explore the works of Indian thinkers and analyse their perspectives on ethical behaviour.

**Learning Outcomes (LOs)** At the end of the course the students will be able to:

1. recall the concept of educational sociology
2. describe social change, social mobility, and the role of education in fostering social change
3. examine the concept, elements of culture and education as an instrument of cultural change.
4. interpret the meaning of socialization and stratification and the role of education in this regard.

#### **UNIT I: Introduction to Educational Sociology**

- Meaning nature and scope of Sociology
- Concept, scope and functions of Educational Sociology
- Relationship between Education and Sociology
- School as a social- subsystem

#### **UNIT II: Social Change and Social Mobility**

- Meaning of Social Change, Factors affecting Social Change
- Education as an instrument of Social change
- Education and Social mobility
- Education and Modernization

#### **UNIT III: Education and Culture**

- Meaning of Culture, Elements of Culture.
- Types of Culture, Cultural Lag
- Education and Cultural heritage of India: Preservation, Transformation and Advancement

- Education as an instrument of cultural change

#### **UNIT IV: Socialization and Social Stratification**

- Meaning and Nature of Socialization.
- Agents of Socialization
- Meaning, Nature and Types of Social Stratification
- Role of Education in Social Stratification

#### **Sessional Work**

- Internal Test and Assignment

25 Marks

#### **Activity (Any one)**

1. Engaging with diverse communities and writing a Report
2. A comparative study of traditional and modern culture. A Report
3. Seminar on any topic related to syllabus
4. Social Drama or Role Play
5. Any other

#### **Suggested Readings**

**Course Code** : EDN 252  
**Course Title** : Psychological foundations of Education  
**Total Contact Hours** : 60  
**Total Credits** : 4  
**Total Marks** :100

**Course Objectives (COs)** The course objectives are to enable students to:

1. identify and articulate the psychological foundations in education
2. explain and evaluate concepts of intelligence and creativity and their educational significance
3. analyse and discuss the principles of learning and motivation and their application in educational contexts
4. assess the concepts of personality and individual differences, and their implications for education

**Learning Outcomes (LOs)** The learners after the completion of the course they will be able to:

1. identify the fundamental principles of psychology as they relate to education
2. explain the concept of intelligence, theories of intelligence and the role of education in promoting creativity.
3. relate to the concept of learning, motivation and the theories associated herein.
4. illustrate the concept of personality, individual differences, and their educational implications.

### **Unit I: Introduction to Psychology and Education**

- Meaning, Nature, Scope of Psychology
- Meaning, Nature, Scope of Educational Psychology
- Relationship between Psychology and Education
- Importance of Educational Psychology for a teacher.

### **Unit II Intelligence and Creativity**

- Meaning, Nature of Intelligence
- Determinants of intelligence
- Theories of Intelligence: Spearman's two factor Theory, Thurstone's Multifactor Theory, Guilford's Structure of Intellect, Howard Gardner's Multiple Intelligence Theory.
- Meaning and Nature of Creativity, Role of Education in promoting Creativity.

### **Unit III: Learning and Motivation**

- Concept of Learning and factors influencing Learning
- Theories of learning: Thorndike, Pavlov, Skinner, and Gestalt (Insightful learning) theories of learning

- Social Development theory: Vygotsky
- Concept of Motivation, and Maslow's Hierarchy of Needs

#### **Unit IV: Personality and Individual differences**

- Meaning, Nature and Determinants of Personality
- Measurement of Personality
- Theories of Personality: Allport, Cattell and Freud.
- Individual differences and its educational implications

#### **Sessional Work**

- Internal Test and Assignment 25 Marks

#### **Activity: (Any one)**

1. Assignment on any topic related to the syllabus.
2. Creation of a short video on Motivation
3. Administer a personality test on a subject and interpret.
4. Administer an intelligence test on a subject and interpret
5. Any other

**Course Code : EDN 253**

**Course Title : Educational Technology**

**Total Contact Hours : 60**

**Total Credits : 4**

**Total Marks :100**

**Course Objectives (COs)** The course objectives are to enable students to:

1. recall and articulate the principles of Educational Technology
2. apply technology effectively in the teaching and learning process
3. analyse various types of communication and the fundamentals of teaching models
4. demonstrate and evaluate innovations in educational technology and their relevance to education

**Learning Outcomes (LOs)** At the end of the course, the students will be able to:

1. indicate the concept of Educational Technology and its application to teaching – learning process
2. explain the communication process and the role of Information Communication Technology (ICT) in teaching-learning and instruction to design sound instructional system
3. classify the different models of teaching and teaching aids used in teaching – learning
4. compare the recent innovations in educational technology and their application

### **Unit-I: Understanding Educational Technology**

- Educational Technology: Concept, scope and importance of Educational Technology
- Types of Educational Technology: Hardware and Software
- Systems approach to instruction
- Application of technology to teaching learning process

### **Unit-II: Communication Process**

- Communication: Concept and Process
- Types of Communication
- Barriers of Classroom Communication
- Role of ICT in teaching and learning

### **Unit-III: Models of teaching and Teaching Aids**

- Models of Teaching: Meaning and characteristics
- Fundamental elements of teaching models
- Models of Teaching: Information Processing, Computer Based teaching

- Teaching aids: Edgar Dale's Cone of experience

#### **Unit-IV: Innovations in Educational Technology**

- Social learning: Social networking sites, blogs, Chats, video conferencing, discussion forum
- Open Education Resources: Creative Commons, Massive Open Online Courses (MOOCs)
- e- Inclusion: Concept and application
- Ethical issues of e- learner and e-teacher

#### **Sessional Work**

- Internal Test/Assignment/Seminar/ 25 marks

#### **Activity (Any one)**

1. Prepare a Power point presentation on any topic from the syllabus.
2. A review of an educational program presented through e-content.
3. Visit to any educational technology institute/centre.
4. Application and use of a recent technology tool in classroom activities.
5. Any other

**Course Code** : EDN 300  
**Course Title** : Educational Management  
**Total Contact Hours** : 60  
**Total Credits** : 4  
**Total Marks** :100

**Course Objectives (COs)** The course objectives are to enable students to:

1. describe the principles and practices of educational management
2. devise strategies for educational planning and assess its significance in the educational context
3. examine the relevance and application of management principles in the teaching-learning process
4. measure the impact of leadership in educational settings

**Learning Outcomes (LOs)** At the end of the course, students will be able to:

1. explain the concept of Educational Management
2. describe educational planning and supervision
3. analyse the process of educational management
4. recognise the implications of leadership style and its impact on performance

### **Unit I. Introduction to Educational Management**

- Educational Management: Concept, Need and Scope of Educational Management
- Types: Centralized and Decentralized, Authoritarian and Democratic
- Objectives and Principles of Management
- Role of Educational manager

### **Unit II: Educational Planning**

- Educational Planning- Meaning, need and significance
- Aims and objectives of educational planning
- Types and Process of Educational planning
- Institutional Planning-Meaning, needs and importance

### **Unit III: Management of Teaching-Learning Process**

- Management of Teaching-Learning Process- Planning, Organizing, Leading and Evaluating
- Managerial Skills for Teachers
- Concept of Organizational Behaviour
- Factors affecting Organizational Behaviour (Personal, Social, Cultural, Political and Institutions)

#### **Unit IV: Leadership Behaviour and Supervision**

- Concept of Leadership Behaviour
- Factors affecting Leadership Behaviour
- Leadership Styles- Autocratic, Democratic, Transformational, Transactional and Laissez- Faire
- Supervision – Concept, types, and principles of Supervision

#### **Sessional Work**

- Internal Test/Assignment 25 Marks

#### **Activity(Any one)**

1. Write a report on the process of educational management of any school.
2. Identify the roles of educational leaders to plan various institutional activities and write a report.
3. Identify the managerial skills for teachers in the classroom and write a report.
4. Role play on any one leadership styles
5. Any other

**Course Code : EDN 301**

**Course Title : Curriculum Development**

**Total Contact Hours : 60**

**Total Credits : 4**

**Total Marks :100**

**Course Objectives (COs)** The course objectives are to enable students to:

1. demonstrate comprehensive understanding of the historical, philosophical, psychological, and social foundations that influence curriculum development
2. apply essential principles and methodologies in designing and constructing
3. practice skills to critically evaluate existing curricula, identifying strengths, weaknesses, and areas for improvement using appropriate assessment tools and techniques
4. interpret the processes involved in curriculum reform, including the ability to design and implement innovative changes that address contemporary educational needs and standards

**Learning Outcomes (LOs)** At the end of the course, students will be able to:

1. develop an understanding about concept of curriculum construction.
2. explain the concept of curriculum development.
3. interpret the process of curriculum development.
4. evaluate the curriculum.

### **Unit I: Introduction to Curriculum**

- Curriculum: Meaning, characteristics and scope of curriculum
- Difference between - curriculum, syllabus & courses of study; curricular, co-curricular & extracurricular activities
- Basis/foundations of curriculum: philosophical, psychological, sociological & political.
- Types of curriculum -subject -centred, experience centred & child-centred based

### **Unit II: Curriculum Development**

- Concept, need & objectives of curriculum development
- Basic elements of curriculum development
- Factors influencing curriculum development
- Principles of curriculum construction

### **Unit III: Process of curriculum development**

- Diagnosing needs & formulating specific objectives
- Selecting & organising content
- Selecting & organising learning experiences
- Evaluating

### **Unit IV: Evaluation and Reform of curriculum**

- Concept & objectives of curriculum evaluation
- Types of curriculum evaluation - formative & summative
- Curriculum reform - concept, need, factors & obstacles of curriculum
- National Curriculum Framework, 2005- Guiding principles & salient features

### **Sessional Work**

- Internal Test/Assignment 25 Marks

### **Activity (Any One)**

1. Compare the curriculum of any two school boards.
2. Write a report on the NEP 2020 curriculum structure of the UG level.
3. Write on the issues and challenges faced by teachers of your college on implementation of NEP 2020 curriculum.
4. Write on the issues and challenges faced by students of your college during classroom instruction
5. Any other

|--------------------------------|---|

### **Unit I: Introduction to Sustainable Development**

- Historical Perspectives on sustainability
- Concept, nature, and scope of sustainable development
- Need and importance of sustainable development
- Sustainable Development: World and Indian Perspectives

## **Unit II: Sustainable Development Goals**

- Introduction to Sustainable Development Goals (SDGs)
- Challenges and strategies in attaining SDGs in developing countries with special reference to India
- SDG Index and its components
- Focus on SDG 4- Quality Education and its implementation in India

## **Unit III: Education for Sustainable Development**

- Specific learning objectives for different SDGs
- Education as a key instrument to achieve SDGs
- Integrating ESD in the classroom and Eco feminism
- Berlin declaration 2021 on Education for Sustainable Development (ESD)

## **Unit IV: Educational Strategies for Sustainability**

- Transforming the instructional approach for effective ESD dissemination.
- Teaching Techniques for ESD
- Assessment of ESD Learning Outcomes
- Role of educational institutions in achieving sustainability goals.

## **Sessional Work**

- Internal Test/Assignment/Seminar/ 25 marks

## **Activity(Any one)**

1. Case study on any topic that act as challenges for the promotion of SDGs.
2. Field Visits to exposure and identification of real-world challenges.
3. Identify innovative solutions to promote the Sustainable Development Goals.
4. Interactive Workshops for students to deliberate on problem-solving, leadership, and ethical reasoning as per NEP directives with reference to SDGs.
5. Any other

**Course Code** : EDN 302 (Minor)

**Course Title** : Inclusive Education I

**Total Contact Hours** : 60

**Total Credits** : 4

**Total Marks** :100

**Course Objectives (COs)** The course objectives are to enable students to:

1. describe the principles and importance of inclusive education, recognizing its role in fostering equitable learning environments for all students.
2. identify the Needs of Children with Special Needs including various disabilities and learning challenges, and how these needs can be effectively addressed in an inclusive educational setting.
3. examine the Role of Various Agencies and their contributions in promoting educational reforms and policies that support an inclusive society.
4. design, implement, and evaluate inclusive educational practices and strategies, ensuring that all students, regardless of their abilities, have access to quality education.

**Learning Outcomes (LOs)** At the end of the course, students will be able to:

1. recognise the meaning of inclusion and exclusion
2. explain the concept of Inclusive Education
3. identify children with special needs
4. examine the educational reforms for inclusive society

### **Unit I: Foundations of Inclusive Education**

- Introduction to Inclusive Education
- Concept, meaning, need and scope of Inclusive Education
- Objectives of Inclusive Education
- Adjustment, modification, diversification in inclusive Education

### **Unit II: Children with special needs (CWSN)**

- Concept of Impairment, Disability and Handicap
- Meaning, Types, Identification, characteristics & curriculum for children with special needs (CWSN)
- Learning Disabilities - Definitions and their specific Problems
- General causes of disabilities

### **Unit III. Techniques and Aids for the Education of CWSN**

- Techniques and Aids for Visual and hearing impaired
- Techniques and Aids for Speech and language impaired
- Building an Inclusive school - desired changes in System, Structure, Practice and Culture
- Role of school in creating a barrier free environment

### **Unit IV. Role of Agencies and Educational Reforms for Inclusive Society**

- Person with Disabilities Act 1995-96
- Right of Person with Disabilities Act 2016 & amendments (RPWD)
- Rehabilitation Council of India (RCI), Role of Informal agencies (like mass media etc) in building an inclusive society
- Role of family, community in nurturing of children with special needs

### **Sessional Work**

- Internal Test/Assignment/Seminar/ 25 marks

### **Activity(Any one)**

1. Visit to a centre of students with special needs (special school/special institute). Observe the process of teaching learning and write a report.
2. Conducting interviews with peers/parents/siblings/teachers of children with disabilities and write a report.
3. Writing a description on the initiatives and provisions for CWSN under SSA and RMSA.
4. Case study of children with special needs.
5. Any other

**Course Code** : EDN 303

**Course Title** : **Internship/Apprenticeship/Community Engagement and Service/Field Based Learning/Minor Project**

**Total Contact Hours** : 60

**Total Credits** : 4

**Total Marks** :100

**Course Objectives (COs)** The course objectives are to enable students to:

1. **internship/Apprenticeship Experience:** Students will engage in real-world internships or apprenticeships to apply theoretical knowledge in practical settings, gaining hands-on experience and professional skills relevant to their field of study
2. **community Engagement and Service Learning:** Students will actively participate in community-based projects or service-learning initiatives, collaborating with local organizations or communities to address societal needs, while integrating academic learning with practical experience and civic responsibility
3. **Field-Based Learning Opportunities:** Students will have the opportunity to engage in field-based learning experiences, such as field trips, research expeditions, or outdoor activities, to deepen their understanding of course content, observe real-world phenomena, and develop field-specific skills in authentic settings
4. **completion of a Minor Project:** Students will undertake a minor project, allowing them to delve deeper into a specific topic or area of interest within their field of study. Through independent research, analysis, and presentation, students will demonstrate their ability to apply critical thinking, problem-solving, and creativity to produce scholarly work

**Learning Outcomes (LOs)** At the end of the course, the students will be able to:

1. identify the task to be carried out
2. engage in the new task assigned
3. develop and create new skills in line with the task
4. apply the skills gathered from the course

**Duration:** 4 weeks (120 hours/30 hours per credit)

**Supervisor:** Teachers

- **Planning:** The students will identify the work, task, and topic (*Internship/Apprenticeship/ Community Engagement and Service/Field Based Learning/Minor Project*) that they will engage in the four weeks. They will need to make a broad plan, weekly plan, and daily plan and follow the blue print of the plan in

carrying out the task ahead.

- **Organizing:** The students will organize the work according to the plan. They will prepare/adopt tools to be used in the work/task and carry out the necessary steps.
- **Execution:** The actual work will be carried out in the field chosen by them to carry out the work/task. This will involve engagement of the students with field work and data collection.
- **Reporting:** The work that the student has engaged and carried out will be produced in a produced in the form of the report. The report will be submitted in an approved format and within a time frame.

### Sessional Work

- Internal Test/Assignment/Seminar/ 25 marks
- Submission of Report and Viva-voce 75 marks

### Activity

- (1) Preparation of a plan of the work to be carried out and getting approve from the concern supervisor. (12.5 marks)
- (2) Follow up and observation of the field work of the students. (12.5 marks)

### Suggested Readings

**Course Code** : EDN 350

**Course Title** : Introduction to Educational Research

**Total Contact Hours** : 60

**Total Credits** : 4

**Total Marks** :100

**Course Objectives (COs)** The course objectives are to enable students to:

1. Identify the various methods of acquiring knowledge and different forms of educational research, including historical, descriptive, experimental, and action research, along with their significance, scope, and steps involved.
2. Prepare research proposals, including conducting literature reviews, identifying research problems, formulating research questions and objectives, and addressing ethical considerations in research design and implementation.
3. Apply the principles of research design, including population and sample selection, sampling techniques, formulation of research questions and hypotheses, and selection and utilization of appropriate data collection tools and techniques, such as Likert scales, questionnaires, interviews, observations, and their respective applications.
4. Use Research Methods to design, conduct, and evaluate research studies relevant to educational settings, addressing real-world educational challenges and contributing to the advancement of educational knowledge and practices.

**Learning Outcomes (LOs)** At the end of the course the students will be able to:

1. describe educational research and the types of research
2. explain the different methods that are applicable in research
3. prepare a research proposal and interpret the ethical considerations in research
4. outline the research design and the elements that are involved therein.

### **Unit I: Introduction**

- Methods of Acquiring Knowledge
- Educational Research: Meaning, Nature and Scope
- Forms of Educational Research: Fundamental and Applied
- Variable: Meaning and types (Dependent and Independent, Continuous and Discrete)

## **Unit II: Methods of Research**

- Historical Research: meaning, significance, scope and steps
- Descriptive Research: meaning, significance, scope and steps
- Experimental Research: meaning, significance, scope and steps
- Action Research: meaning, significance, scope and steps

## **Unit III: Research Proposal**

- Review of related literature: Concept, Purpose and sources of review
- Identification of research problem (selection, definition and delimitation)
- Steps in formulating Research Proposal
- Ethical considerations in research (Informed consent, anonymity, and data safety)

## **Unit IV: Research Design**

- Research Design: Population, sample, and sampling techniques
- Research Questions, Objectives and Hypotheses
- Tools for data collection (Likert's Scale, Questionnaire and interview schedule)
- Techniques of Data Collection – Observation and Interview

## **Sessional Work**

- Test/Assignment 25 Marks

## **Activity (Any One)**

1. Write a Research Proposal on any topic.
2. Prepare a Questionnaire/ an Interview Schedule for data collection.
3. Construct a Likert's Scale on any research topic
4. Prepare a review of related literature on any research topic
5. Any other

## **Suggested Readings**

1. Creswell, J. W. (2015). Educational Research: Planning, Conducting, and Evaluating Quantitative and Qualitative Research. Pearson Education India.
2. Koul, Lokesh. (2020). Methodology of Educational Research (Fifth Edition). Vikas Publishing.
3. Mangal, S.K. (2013). Research Methodology in Behavioural Sciences. Prentice Hall India Learning Private Limited.

**Course Code** : EDN 351

**Course Title** : **Methods and Techniques of Teaching**

**Total Contact Hours** : 60

**Total Credits** : 4

**Total Marks** :100 (Internal 25 & External 75)

**Course Objectives (COs)** The course objectives are to enable students to:

1. develop a comprehensive understanding of diverse teaching methods and their practical applications in various educational settings.
2. acquire proficiency in integrating technology effectively into teaching practices to enhance student engagement and learning outcomes.
3. cultivate essential skills in teaching, including lesson planning, classroom management, and assessment strategies, through hands-on experiences and reflective practices.
4. master the art of micro-teaching to refine teaching techniques, receive constructive feedback, and continuously improve instructional delivery for enhanced student success.

**Learning Outcomes (LOs)** After the completion of the course the students will be able to:

1. describe various concepts related to teaching
2. illustrate the concept of instructional objectives and the approaches of writing objectives
3. relate to the methods of teaching and technology involved in teaching
4. interpret the concept of microteaching and the skills involved in teaching

### **Unit I: Introduction to Teaching**

- Concept, functions and principles of teaching, Characteristics of effective teaching
- Maxims of Teaching
- Levels of Teaching: Memory, Understanding and Reflective Level
- Teaching Operations at Various Stages (Pre-Active; Interactive; Post-Active)

### **Unit II: Instructional Objectives**

- Concept and importance of instructional objectives
- Bloom's Taxonomy of instructional objectives (original and revised)
- Miller's approach on writing instructional objectives
- 5 E approach of constructivism

### **Unit III: Teaching Methods and Teaching Technology**

- Methods of Teaching: Lecture, Demonstration, Problem- Solving and Discussion
- Teaching Behaviour: Authoritarian, Democratic and Laissez-Faire
- Programmed Instruction: Concept, Principles and Steps of Programmed Instruction
- CAI: Concepts, modes and management of computer instruction

### **Unit IV: Skills of Teaching and Micro Teaching**

- Micro Teaching: Concept, Micro teaching cycle and importance
- Flanders Interaction Analysis Category: Concept, Steps of analysis and importance
- Team Teaching: Concept, types and importance
- Simulated Social Skill Training (SSST): Concept, types and importance

### **Sessional Work**

- Test/Assignment 25 Marks

### **Activity (Any one)**

1. Write the educational objectives on any topic
2. Preparing of a micro-lesson on any one skill for any topic.
3. Prepare 5-E model lesson plan on any topic
4. Write the instructional objectives on any topic
5. Any other

### **Suggested Readings**

1. Duran, Mesut. (2023). Learning Technologies: Research, Trends, and Issues in the U.S. Education System. Springer International Publishing AG.
2. Mangal, S.K. (2009). Essentials Of Educational Technology (Fourth edition). Prentice Hall India Learning Private Limited.
3. Shukla, Satish Prakash S. (2019). Information Communication and Educational Technology. Agrawal Publication.

**Course Code** : EDN 352

**Course Title** : Teaching-Learning Process

**Total Contact Hours** : 60

**Total Credits** : 4

**Total Marks** :100 (Internal 25 & External 75)

**Course Objectives (COs)** The course objectives are to enable students to:

1. develop a comprehensive understanding of the dynamics involved in the teaching-learning process, including the roles of teachers and learners, learning theories, and effective instructional strategies.
2. acquire knowledge and skills in classroom management techniques to create a conducive learning environment that fosters engagement, participation, and mutual respect among students.
3. explore the principles and practices of assessment and evaluation in education, including various assessment methods, techniques for designing valid and reliable assessments, and strategies for using assessment data to inform instruction and support student learning.
4. apply theoretical knowledge and practical insights gained throughout the course to critically analyse and address real-world challenges in teaching-learning contexts, demonstrating proficiency in effective teaching practices, classroom management strategies, and assessment and evaluation techniques.

**Learning Outcomes (LOs)** At the end of the course the students will be able to:

1. describe about the differences in learners and the role of the teacher as a facilitator in learning
2. illustrate the different dimensions involved in the teaching-learning process.
3. explain classroom management and the role of teachers in managing a positive learning environment.
4. appraise the significance of assessment and evaluation in teaching – learning process

### **Unit I: Understanding the Learner**

- Dimensions of differences in Learner: Physical, psychological, cognitive and language development
- Understanding diverse learners: Slow and gifted

- Understanding learners from the perspective of Gardner's Multiple Intelligence Theory
- Role of the teacher in facilitating learning

### **Unit II Teaching- Learning process**

- Planning teaching- Learning
- Organizing teaching- learning
- Steps of teaching –learning
- Managing Classroom teaching- learning

### **Unit III: Classroom Management**

- Classroom Management: Concept and principles of classroom management, discipline and indiscipline in the classroom, factors affecting classroom management
- Managing student behaviour: Understanding cognitive differences-slow and gifted learners; accommodating slow and gifted in the classroom
- Managing diversity: Concept of diversity, inclusion of diverse group in the classroom (language, gender, Minority groups )
- Role of teachers: Role of teachers in managing and establishing positive teaching-learning environment

### **Unit IV: Assessment and Evaluation**

- Evaluation: Concept, objectives, principles and purpose of evaluation
- Types of Evaluation: Formative and Summative
- Assessment Designing: Process of setting question paper and assignment aligned with learning objectives
- Feedback: Constructive feedback and enhancing motivation in classroom

### **Sessional Work**

- Internal test/ Assignment 25 Marks

### **Activity (Any one)**

1. Critically analysis any one method of teaching
2. Discuss how gifted and slow learners be accommodated in the classroom
3. Prepare either formative or summative questions for assessing students' performance in the classroom
4. Prepare a question paper/ learning chart on any topic
5. Any other

**Course Code** : EDN 353

**Course Title** : Great Educators: Thoughts and Practices

**Total Contact Hours** : 60

**Total Credits** : 4

**Total Marks** :100 (Internal 25 & External 75)

**Course Objectives (COs)** The course objectives are to enable students to:

1. identify the influential figures in the history of education and their significant contributions to educational theory and practice.
2. explore the life stories, philosophies, and methodologies of renowned educators and thinkers, analysing how their ideas have shaped contemporary educational practices.
3. examine the educational principles and pedagogical approaches advocated by great thinkers, discerning their relevance and applicability in modern educational settings.
4. synthesize insights from the lives and works of prominent educators to inform personal pedagogical approaches, fostering critical reflection and professional growth in teaching practice.

**Learning Outcomes (LOs)** After the completion of the course the students will be able to:

1. explain the philosophical perspectives of Indian thinkers during the period 1770-1950
2. illustrate the work of modern Indian thinkers and their educational implications.
3. infer on the contribution of western thinkers to the education system.
4. relate to the educational practices as propagated by the great educators.

#### **Unit I: Indian Thinkers (1770-1950)**

- Savitribai Phule
- Pandita Ramabai
- Rabindra Nath Tagore
- Sri Aurobindo

#### **Unit II: Modern Indian Thinkers**

- S. Radhakrishnan
- J. Krishnamurthy
- Maulana Abul Kalam Azad
- A. P. J. Abdul Kalam

### **Unit III: Western Thinkers**

- John Amos Comenius
- Jean Jacques Rousseau - Wollstonecraft
- John Pestalozzi
- Bertrand Russell

### **Unit IV Educational Practices**

- Froebel's Kindergarten (1782 - 1852)
- John Dewey (1859-1952)
- Mahatma Gandhi's Basic Education (1869 -1948)
- Montessori Method (1870- 1952)

### **Sessional Work**

- Test/Assignment

25 Marks

### **Activity (Any one)**

1. Give a write up on the educational practices of any eminent thinker at the state/national level.
2. Write a report on observance of National Education Day/Gandhi Jayanti in your institution.
3. Prepare a collage on contribution of any thinker based on a selected theme.
4. Visit a kindergarten/ crèche and write a report
5. Any other

### **Suggested Readings**

1. Basu, Punam. (2012). Educational Thought and Practice. Saurabh Publishing House.
2. Palod, Sunita, & Lal, Raman Behari. (2014). Educational Thought and Practice. R. Lall Publisher & Distributors.
3. Taneja, V. R. (1995). Educational Thought and Practice. South Asia Books.

**Course Code** : MDC 210-219  
**Course Title** : **Development of Education in the North-East India**  
**Total Contact Hours** : 60  
**Total Credits** : 4  
**Total Marks** :100 (Internal 25 & External 75)

**Course Objectives (COs)** The course objectives are to enable students to:

1. assess the historical development and evolution of education in the North-East region of India, including key milestones, influences, and shifts in educational paradigms over time.
2. analyse the current status of education in the North-East region, identifying prevalent challenges, issues, and disparities in access, quality, and inclusivity.
3. explore the unique contributions of traditional knowledge systems and indigenous practices to education in the North-East, highlighting their cultural significance, pedagogical value, and potential for enriching contemporary educational approaches.
4. develop a critical perspective on the intersection of traditional and modern educational practices in the North-East, examining opportunities for synergy, innovation, and sustainable development in educational policy and practice within the region.

**Learning Outcomes (LOs)** At the end of the course, students will be able to:

1. examine the evolution and status of education.
2. identify the problems and issues of education.
3. recall the traditional knowledge practices and their uses in education.
4. identify the issues and problems of the current system of education in Meghalaya.

### **Unit I: Evolution and Status of Education**

- Evolution of education in pre-Independence India
- Role of Samagra Shiksha Abhiyan (SSA)
- Status of education in free India
- Present status of literacy and education in Meghalaya

### **Unit II: Problems and Issues of education**

- Problems and Issues of education at the primary level
- Problems and Issues of education at the secondary level
- Problems and Issues of education at the higher education level
- Problems and Issues of technical and vocational education in Meghalaya

### **Unit III: Contribution of traditional knowledge and skills for Education**

- Role of Traditional institutions in Education
- Indigenous Knowledge System according to NEP 2020-concept and features
- Traditional Knowledge practices and their uses in education
- Role of Education in the diverse culture of the regions in Meghalaya

### **Sessional Work**

- Internal Test/Assignment/Seminar/ 25 marks

### **Activity (Any one)**

1. Write a report in the festivals of your state.
2. Assignment from any topic of the syllabus.
3. Create a short reel/video on the diverse traditional costumes of the people of North-East.
4. Assignment on the role of education in promoting traditional knowledge.
