Report on the World Environment Day Celebration 2022

The World Environment Day, 2022 was celebrated on the 3rd June, 2022 to bring awareness to the student and the faculties with regards to the pressing environmental issues and challenges. This year’s theme for the World Environment Day was “Living sustainably in harmony with nature”, whereby the theme highlighted the pressing issue of acknowledging that we have *only one earth*, therefore there is an urgent need to preserve and save our planet earth.

The Programme was held at 1 p.m. in the presence of the Teacher-in-Charge, Dr. O. P. Khadka; the Convener and Members of the ‘Ong’telaigipa’ Environmental Club; the Nodal Officers and members of NCC and NSS Units; the members of WGC Students’ Union; and the non-teaching staff of Williamnagar Government College. Tree saplings were distributed by the members of the Club to all the attendees of the Programme. Two saplings were planted in the administrative building area by the Teacher-in-Charge and the ‘Ong’telaigipa’ Environmental Club. A Speech was also given by the Teacher-in-Charge on the message of the World Environment Day, 2022 theme. Furthermore, the Club conducted a Pledge Activity on sustainable living through a Google form that was shared on WhatsApp and received a successful response from the students and faculties of the Institution. The Programme concluded with a photo session and light refreshments that followed thereafter.
